Overview

I'm a Frontend Developer with a passion for crafting clean, accessible, and user-focused digital experiences. With expertise in JavaScript, HTML, CSS, and modern content management systems, I build scalable design systems and dynamic UI components that bring brands to life. I thrive at the intersection of creativity, usability, and performance.

Skills & Tools

HTML, CSS, JavaScript, Responsive Design, Adobe Experience Manager 6.5, Magento, Craft CMS, ExpressionEngine, SASS, Tailwind, TypeScript, GraphQL, REST API, GIT, Twig, JIRA, BitBucket, Confluence, Figma, Sketch, Adobe XD, and style guides.

Experience**Texas Space Commission**

Web Administrator, Oct 2024 - Current

- Led design and development of new a website to deliver key information to target audiences
- Integrated the site into a content management system (CMS) for streamlined content updates and maintenance
- Built a scalable design and development framework to support future brand growth and evolution
- Created a digital accessibility strategy aligned with Web Content Accessibility Guidelines 2.1 (WCAG 2.1) and other relevant standards
- Provided SharePoint setup, support, and configuration to enhance internal team collaboration and workflow efficiency

Expedia Group

Frontend Developer, Oct 2023 - Oct 2024

- Maintained and optimized the Partner and Escapia marketing sites within Adobe Experience Manager (AEM), ensuring high performance and usability
- Engineered and deployed the ui.frontend module within the AEM project archetype, enabling seamless integration of a shared component library across multiple AEM instances
- Collaborated with backend developers to test and implement AEM service pack updates, ensuring platform compatibility and resolving critical bugs
- Refined functionality and design of out of the box AEM components, and custom components to enhance flexibility for content authors and ensure consistent, engaging user experiences
- Implemented event listeners to capture user interactions, providing the analytics team with actionable engagement insights

MRM

Frontend Developer, Feb 2021 to August 2023

- Developed accessible components and forms in Adobe Experience Manager (AEM), enhancing usability and compliance with accessibility standards
- Integrated Magento product and user data into AEM using GraphQL and JavaScript, enabling seamless cross-platform data flow
- Built and optimized websites for multinational markets using AEM and Magento, ensuring localization, performance, and customized user experiences
- Authored documentation about custom components in Confluence to support content authors and developers with technical information
- Designed and implemented style guides to maintain a consistent and cohesive visual identity across all digital projects

Macsales.com / OWC

Frontend Developer, May 2015 to Dec 2021

- Developed and maintained websites across the company's digital ecosystem in close collaboration with backend developers
- Partnered with marketing, design, and engineering teams to launch a redesigned e-commerce website, delivering a responsive and user-friendly experience
- Led content migration and CMS integration into Craft CMS, improving content manageability in an e-commerce environment
- Built a single-page application (SPA) for the Used Macs configurator and My Upgrades sections, leveraging internal APIs for better developer efficiency

Education Service Center | Region 13

Web Developer & Project Lead, January 2012 - May 2015

- Led full web development lifecycle, from defining goals and technical requirements to testing, deployment, and post-launch support
- Migrated the organization's static website to a CMS platform, streamlining content management and improving scalability
- Designed and developed a video commenting platform, significantly reducing feedback loops and video editing time
- Built a custom online conference platform with registration, networking, live video streaming, and integrated commenting features
- Created comprehensive online training materials for educators, enhancing usability and accessibility
- Delivered user training on WordPress, ExpressionEngine, and Craft CMS, covering publishing workflows and best practices for ongoing maintenance

Education

Southwest Texas State University, San Marcos, TX

Bachelor of Fine Arts with a Specialization in Photography
